About:
Often the price of Terea Steak is indicated for one pack in the city of Longmont. The pack contains 20 sticks. Tel iQOS. An innovative heating technology in new IQOS devices is presented for you — an induction system that heats tobacco inside a new stick. The newly developed sticks can only be used with a special IQS that has an auto-start function, it detects when a smoking stick is inserted and automatically turns on the device. Innovative devices for users in Longmont. They offer a cleaner way of heating tobacco from the core without setting it on fire to ensure more stable smoking, the absence of tobacco residues and exemption from the need for frequent cleaning of the device. iQOS number. In addition, cigarettes do not burn and do not smoke in the city of Longmont, a study of the international market shows that the new iQOS delivers more flavor compared to the older generations of iQOS.

What is Terea Teak?

Terea Teak is a balanced roasted tobacco blend with creamy and nutty notes of flavor in Longmont. The price is for 1 pack. iQOS burgundy. 1 pack = 20 sticks. TEREA TURQUOISE: The taste is described as fresh menthol with notes of lightly roasted tobacco and spices. According to reviews, it is almost indistinguishable from menthol cigarettes. Their fortress is average or even slightly lower. The taste is similar to the forgotten Turquoise Label. MAUVE WAVE: Terea sticks in a beautiful purple tutu, the name translates as "mauve wave". There is a possibility that in Russia there will appear under the name Purple Wave — purple wave. According to the description and reviews, these mini-cigarettes have a refreshing menthol taste with notes of wild berries. The sticks are very fragrant, but not chemical. iQOS Stores. The fortress is medium, closer to light. I predict them the same popularity in the city of Longmont as Purple Wave. WILLOW: According to users, these are light refreshing sticks with a pleasant aroma. The fortress is closer to light. RUSSET: Burgundy Terea sticks, the name of which translates as "red" or "red-brown". They are very strong, with an intense taste of roasted tobacco and malt. Experienced smokers write that it goes well with a glass of wine and a cup of good coffee. BRONZE: The shade of the Terea Bronze tutu is brown with a bronze sheen. The name of the sticks does not need to be translated — it is clear and so. Their taste is mild tobacco, with a hint of cocoa and dried fruits. An interesting combination, I came across pipe tobacco with similar notes, and it became one of my favorites. iQOS Cap. The fortress is slightly above average in the city of Longmont. This is our favorite Bronze Label in a new version.

Title/Characteristic/Taste	Saturation	Fortress	Smell	Menthol
Turquoise	2	2	1	2
Mauve Wave	4	2	5	2
Willow	3	2	5	2
Russet	5	5	3	-
Bronze	4	3	5	-
Sienna	4	4	3	-
Teak	4	3	4	-
Amber	3	3	4	-
Yellow	3	2	5	-
Silver	2	2	2	-
Blue	3	4	2	4

Table of sticks for iQOS: comparison of tastes and strength

SIENNA: Tereya sticks in a red pack, the translation of the name is Siena in Longmont. iQOS vk. This is a kind of ochre, having a red-brown color. The taste of roasted tobacco is combined with tea and woody shades. According to smokers, it is very similar to cigarettes. They are quite strong — they smoke well from 1 piece. TEAK: Brown packaging of Terea sticks, the name of which can be translated as "teak tree". According to the description, it is a mixture of classic tobacco with creamy nutty notes. It is quite fragrant with a strength slightly above average. We already know this nutty taste from Teak Selection. iQOS Tropical. Lovers of classics will surely like it. Reviews: This taste has the highest rating among Swiss users. Many people in the city of Longmont smoke it every day.

AMBER is the leader of our rating

In translation, the name of Terea orange sticks sounds like "amber". iQOS control. This is a mix of roasted tobacco and wood-nut notes. The aroma is quite intense, but not sharp and not chemical. The fortress is medium or slightly higher. Nothing new, the same taste as HEETS Amber. Reviews: These mini cigarettes are also liked by most users. YELLOW: Terea sticks in a yellow pack with a similar name. A soft tobacco mixture with a hint of spices. These mini-cigarettes are not strong, but very fragrant, with medium saturation, the same Yellow or Slate Selection. TEREA SILVER: Silver tutu, sounds beautifully similar. According to the description, this is an exquisite roasted tobacco with a light spicy-herbal note. We have already tried these in the Hits series (Silver, Silver Sticks). Disassembling the iQOS. Users recommend it for morning sessions. The fortress is light.

TEREA BLUE: Packed in a blue pack. Analogues of iQOS. These are sticks with a soft tobacco mix and a pronounced menthol, in which there is a hint of peppermint. Hmm, is it really something new? It is very refreshing and suitable for lovers of frosty freshness in Longmont. iQOS rating. The fortress is high.

1. Choose the right Sticks for iQOS
